

MEPRO RDS

Electro-Optical Red Dot Sight

The durable, aluminum bodied Mepro RDS reflex sight features a crisp 2.0 MOA red dot and a large clear crystal display window for greater FOV with both eyes open. Four brightness settings allow the shooter to adjust to changing light conditions. The technologically advanced on-off sensor shuts the optic off to preserve battery life when no movement is detected one common AA battery provides thousands of hours of use. It comes with a Picatinny rail adaptor and is compatible with NVGs and magnifying scopes.

Proven advantages:

- > Large display window
- > Auto shut-off for low power consumption
- > Minimal maintenance
- > Compatible with NVG & with other magnifier scopes

MEPRO RDS PRO V2/ MEPRO M5

Military Grade Red Dot Sight

The latest and most technical MIL-SPEC red dot optic from Meprolight is the Mepro RDS PRO V.2. New features include 16 levels of brightness for any lighting condition, day or night. Shooters can choose from numerous reticle patterns— as 2.0 MOA dot, Bullseye or 300 Blackout—in either red or green reticle. Shooters can expect thousands of hours of use from a single AA battery.

The Mepro RDS PRO V.2 is battle proven and trusted by militaries, law enforcement agencies and professional shooters world-wide. It comes with a Picatinny rail mount and is compatible with NVGs and magnifying scopes.

Proven advantages:

- > LED Technology for low power consumption
- > Compatible with all standard NVGs & Magnifying Scopes
- > Large display window
- > MIL-STD qualified
